BOARD OF ADJUSTMENTS
January 24, 2011

The meeting was called to order by Chairman Spanjer. Committee members present were Blaine Spanjer, Ray Smelich, Fran Siedhoff and Janet Bonneau. Also present were Building Inspector Ray Sueper, Scott Kuncl and Sten Ulrich.

Sten Ulrich came before the committee to explain his plans for a new garage at 1242 Hawthorne. He would like to build on the existing site of his current garage, but it would be 22' wide and 38' long. Ulrich showed the committee pictures of what the new garage would look like. It would be over the height restriction and on the current site would not meet the set back requirements. After some discussion by the committee Fran Siedhoff made a motion to approve the height at 18.5', but the setback needed to be met. This is contingent upon approval from Tom Ourada due to the power lines that run down the side of the property. Voting yes were Bonneau, Siedhoff, Smelich and Spanjer.

Meeting adjourned.
